## LEADING MID-CORPORATES OF INDIA: FUELING THE SPIRIT OF UDYAMI BHARAT

India's economic landscape stands at a turning point. With an estimated GDP growth of 8% projected for FY24, the nation's ambitions are high. In this scenario, the role of mid-sized corporations becomes even more critical.

India boasts a vibrant entrepreneurial ecosystem, with over 95 micro-enterprises, 4 small & medium entities (SMEs) and just 1 large entity for every 100 entities. In contrast, developed nations see a more balanced distribution, with micro and SME ratios closer to 50-55 and 40 respectively. This skewed distribution, termed the 'Missing Middle' by economists, highlights the critical role Midcorporates play in bridging the gap between nascent businesses and established giants.

Mid-corporates, with their established operations and financial strength, are uniquely positioned to bridge this gap. Compared to smaller companies facing resource constraints, mid-sized corporations have better access to credit, stronger digitalization, and robust governance structures. This resilience allows them to navigate economic fluctuations, attract global investments, and forge strategic partnerships.

Dun & Bradstreet, a longstanding knowledge partner for Indian businesses, is committed to empowering mid-corporates in their growth journey. We offer a comprehensive suite of data and analytics-driven solutions designed to equip companies with the insights they need to make informed decisions. Our solutions address critical areas like supply chain management, financial planning, sales & marketing strategies, and third-party risk compliance. We also provide cutting-edge ESG (Environmental, Social, and Governance) intelligence solutions, ensuring companies navigate the evolving regulatory landscape and much more.

In recognition of the vital role mid-corporates play, Dun & Bradstreet is proud to launch the 5th edition of our prestigious publication, **"Leading Mid-Corporates of India 2024"**. This publication features listing of **1,800+ Mid-corporates** which have been shortlisted from the universe of companies through our proprietary methodology.

I believe this publication will be a valuable resource for businesses seeking to enhance their acumen and gain insights to achieve sustainable growth. I welcome your feedback and suggestions as we continue to support the success of India's midcorporate sector.

An initiative by **G7 CR Technologies India Pvt. Ltd** to Propel SMB Atmanirbharta:

Claim Now!

On behalf of G7 CR Technologies - a Noventiq company, I would like to congratulate Dun & Bradstreet for the 15th edition of its annual SME publication - Leading SMEs of India 2024, and the 5th edition of its Mid-Corporate publication - Leading Mid-Corporates of India 2024. We are thrilled to partner with Dun & Bradstreet for these significant publications.

The MSME sector in India has shown incredible resilience and adaptability, playing a pivotal role in contributing to the country's GDP. The sector has been making a vital contribution to economic growth and stability, especially in the post-pandemic era.

At G7 CR Technologies, we recognize the transformative power of emerging technologies such as Data and AI in driving business growth and efficiency. As a premier provider of managed services, we are committed to empowering MSMEs with innovative data and AI solutions that enhance decision-making, optimize operations, and improve customer experiences. In line with the Atmanirbhar Bharat initiative, G7 CR is proud to offer \$10,000 worth of data and AI implementation services to MSMEs in India. This initiative aims to support MSMEs in their digital transformation journeys, providing them with the tools and expertise needed to thrive in an increasingly digital world.

Our suite of data and AI services is designed to address the unique challenges faced by MSMEs, providing them with actionable insights and automated solutions to streamline their operations. By leveraging our expertise, businesses can unlock new opportunities, reduce costs, and stay competitive in an increasingly digital world.

We have proudly supported numerous MSMEs in their digital transformation journeys, enabling them to harness the power of data and AI to achieve remarkable outcomes. From enhancing supply chain efficiency to personalizing customer interactions, our solutions have made a significant impact across various industries. Additionally, our commitment extends beyond just providing services. We actively engage in knowledge sharing and capacity building through workshops, webinars, and collaborative projects. This holistic approach ensures that MSMEs not only implement cutting-edge technology but also gain the necessary skills and understanding to maximize its potential and sustain growth over the long term.

Looking ahead, we are dedicated to continuously evolving our offerings to meet the ever-changing needs of MSMEs. Our goal is to drive economic growth through technological innovation, ensuring that businesses of all sizes can thrive in the digital age. Once again, congratulations to Dun & Bradstreet on this publication. We are honored to be part of this journey and look forward to contributing to the success of MSMEs across India.

## EXPERTS' VIEW

**Mr. Deepak Singh** Managing Director G7 CR Technologies India Pvt. Ltd.

## What are some of the key milestones of the company in recent years?

G7 CR Technologies India Pvt Ltd - a Noventig company has established itself as a leading Managed Service Provider for Microsoft, earning the prestigious status of Azure Expert Partner and winning the Microsoft Country Partner Award in 2019 & 2020. Over the past couple of years G7CR has achieved Microsoft's advanced specialization designation in application and data modernization, infrastructure and database migration, Analytics, Data and AI implementation, Application development on Microsoft Azure and Kubernetes on Azure. With over 1800 clients served globally and 500+ cloud deployments, these milestones highlight our dedication to providing cutting-edge solutions and services.

## What are some of the key products / services offered by the company?

G7 CR Technologies offers comprehensive end-to-end service offerings on Microsoft Azure. Our

services encompass everything from initial consultation and strategy to full-scale implementation and ongoing support. We specialize in cloud migration, application development, Data and AI implementation, infrastructure optimization, and managed services, ensuring that our clients can fully leverage the power of Azure to drive their business forward. Our expertise includes providing costeffective hosting models, increasing deployment speed, and reducing overall cloud expenditure.

#### What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

In recent years, G7 CR Technologies has introduced several innovative initiatives to enhance our service offerings and client engagement. One such initiative is the AI Playground, which provides handson experience with various AI use cases, enabling our clients to explore and experiment with AI technologies in a practical setting. Additionally, as part of our AI for All initiative, we offer a USD 10,000 credit for data and AI design and implementation. These initiatives have not only expanded our service capabilities but also empowered our clients to harness the full potential of AI and data-driven insights. With G7 CR 2.0, we've introduced an innovative customer experience strategy. Our Unified Customer Experience Strategy bridges the gap between customer expectations and bottlenecks of traditional customer support strategy, offering personalized experience and driving business growth.

#### What are your key strategic priorities for customers and stakeholders to drive long-term growth?

Our key strategic priorities are centered around leveraging Data & Al for informed decision-making and promoting AI for All. By integrating advanced data analytics and AI solutions into our service offerings, we enable our customers and stakeholders to make smarter, datadriven decisions. Our commitment to making AI accessible to all ensures that businesses of all sizes can benefit from the transformative power of AI, driving long-term growth and innovation. Additionally, at G7 CR, we believe that customer experience is not just a service, but a journey. With our Unified Customer Experience (UCX) strategy, we have prioritized customer experience, empowering our team to deliver exceptional service, enhance

customer satisfaction, and drive business growth.

#### Data breaches and downtime can be devastating for businesses. How does G7CR approach cloud security and ensure business continuity for its clients?

G7 CR Technologies takes a comprehensive approach to cloud security to mitigate the risks associated with data breaches and downtime. Our strategy begins with robust infrastructure security, including data encryption both in transit and at rest, strong access controls, and regular vulnerability assessments. We adhere to industry best practices and standards such as ISO 27001 to ensure the integrity and confidentiality of client data. In terms of business continuity, we implement stringent disaster recovery plans and conduct regular backups to minimize downtime in case of unexpected events.

#### Sustainability is becoming increasingly important for businesses. How does G7CR integrate sustainable practices into its cloud solutions and client services?

At G7 CR Technologies, sustainability is a core principle embedded in our cloud solutions and client services. We prioritize energyefficient data centers and leverage virtualization technologies to optimize resource usage and minimize environmental impact. By reducing energy consumption and carbon emissions associated with traditional IT infrastructures, we help our clients achieve their sustainability goals while enhancing operational efficiency and cost-effectiveness. Additionally, we advocate for sustainable practices throughout our supply chain and partner ecosystem.

#### Technology is constantly evolving. What emerging trends do you see shaping the IT landscape in the coming years, and how is G7CR gearing for them?

In the IT landscape, G7 CR Technologies anticipates several emerging trends that will shape the future of technology solutions. These include:

- Artificial Intelligence (AI): Aldriven automation and predictive analytics are set to transform business operations. These technologies enable smarter decision-making, optimize processes, and enhance customer experiences by providing personalized solutions and insights.
- Data-Driven Decision Making: The increasing importance of data analytics means businesses will rely more on advanced data processing techniques to derive actionable insights. Big Data and Al will function together to uncover patterns, trends, and correlations that drive strategic decisions and business growth.

To prepare for these trends, we invest in cutting-edge technologies

and continuously improve our workforce.

India has a vast and diverse IT landscape. How does G7CR cater to the specific needs and regulations of the Indian market in terms of cloud solutions?

G7 CR Technologies understands the unique challenges and opportunities presented by the Indian IT landscape, characterized by diverse industries and regulatory requirements. We offer tailored cloud solutions that address the specific needs of Indian businesses, including data sovereignty concerns and compliance with local regulations such as the Personal Data Protection Bill (PDPB). Our localized approach includes data residency options, ensuring that sensitive data remains within Indian borders to comply with regulatory mandates. We collaborate closely with regulatory bodies and industry associations to stay informed about evolving compliance requirements and incorporate them into our service offerings. 

**Mr. Chetan Jain** Managing Director Inspira Enterprise India Limited

### What are some of the key milestones of the company in recent years?

Inspira Enterprise has been a significant player in cybersecurity and data analytics services since 2008. The organization has expanded its footprint in the UAE, Saudi Arabia, and Oman in recent years. Operating globally across more than 10 countries, Inspira maintains five strategically positioned Cyber Fusion Centers (CFCs) with Dubai and Manila CFCs launched newly. The organization has forged strategic alliances with industry leaders such as IBM, Palo Alto, Microsoft, Fortinet, Saviynt, and others.

Recently, it was named a Leader in the IDC MarketScape for Worldwide Emerging MDR Services 2024 and a Major Player in the IDC MarketScape for Worldwide Cybersecurity Risk Management Services 2023, among several other accolades.

## What are some of the key products / services offered by the company?

Inspira's cybersecurity services are very extensive ranging from basic perimeter security to complex

## inspira

incident management and response. They include Cyber Security Services, Data Analytics Services, Digital Transformation, Cloud and Infrastructure Security Services, and Remote Infrastructure Services.

## How is your company supporting digitalization drive of Indian MSMEs and large corporates?

Inspira Enterprise is improving and strengthening the Security Infrastructure of MSMEs and large corporates by,

#### Streamlining security management

It streamlines security management by eliminating the need to navigate a complex array of point solutions. It provides a unified approach through its partner networks, seamlessly integrating top cybersecurity tools and solutions.

#### Delivering business outcome-based security services

It delivers business outcome-based security services by leveraging industry-leading expertise across all areas of IT infrastructure and cybersecurity. Inspira incorporates best practices and extensive experience from multiple fields, offering renowned consulting and proven trusted solutions.

#### Boosting cyber resiliency

Cyber resiliency is boosted by creating greater threat visibility, easier management, and faster remediation of threats. Inspira also advises on risk and cyber strategy, data privacy and protection, business continuity and resilience, and security architecture and engineering.

#### What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

Inspira's recently launched Cyber Fusion Centers (CFCs) in Manila and Dallas are equipped to not only detect, respond, and remediate incidents in near real-time, but also provide intelligence-based analysis which helps prevent future cyber security threats. Innovative solutions are co-created with clients and partners to meet unique requirements.

Inspira is now developing a native MDR platform, iMDR, which is slated for release to clients this year. This platform will feature advanced detection and hunting capabilities, along with a GenAI-enabled dashboard integrated into the iSMART2 customer portal.

Additionally, Inspira is expanding its service portfolio with innovative solutions like deception as a service and IT-OT converged Security Operations Centers (SOCs).

**Mr. Indrajit Shinde** Director Aksentt Tech Services Limited

### Journey of Aksentt since its inception:

Aksentt Tech has been a pioneer in large network deployment services. Following the privatization of the telecom sector in 1999, we became one of India's few telecom infrastructure deployment companies supporting nearly all cellular operators. Over time, Aksentt transitioned from being infrastructure-focused to providing a robust, converged ITES and ICT ecosystem. With more than two decades in the business, Aksentt is uniquely positioned to meet the digital transformation needs of modern enterprises. Today, Aksentt is a crucial convergence bridge for enterprises, recognized as India's largest digital transformation company with significant contributions to the telecom infrastructure sector. In January 2024, Aksentt was honoured with the 'Most Acclaimed Digital Infrastructure Providers for Public Sector' Award. Additionally, in June 2024, we received the Great Place to Work award among the best midsized companies in India and hold high-

quality standards with CMMI-DEV and SVC Level 5 certifications.

## What are some of the key products / services offered by the company?

Our digital connectivity solutions create the backbone of your futureready organisation. From design to deployment, we work with you to build the connectivity now essential for a digitally connected organisation. Our services range from consulting, infrastructure management, GIS planning and designing solutions, network design, telecom product engineering, network rollout, and operations.

#### How is your company supporting Government's digitalization drive for last mile connectivity in India?

Aksentt is dedicated to meeting the evolving ICT needs of the emerging digital economy and addressing the demands from telecom carriers and government programs. India has experienced significant internet growth in rural areas, driven by the Digital India initiative and ambitious projects like BharatNet.

Leveraging our extensive experience and stellar track record, Aksentt has launched India's first state-wide MPLS-based network, Mahanet, connecting over 12,000 villages with high-speed fiber for rural broadband and dark fiber monetization. Under BharatNet phases 1 and 2, we manage and maintain 100,000 km of fiber network in Maharashtra. Additionally, we are rolling out Fiber To The Premise (FTTX) to connect 65,000 government-controlled locations in Gram Panchayats with high-speed broadband.

## How is the company gearing towards "Atmanirbharta"?

Digital communications are increasingly recognized as a vital tool for socio-economic development. As the world's second-largest telecom market, India is experiencing a growing number of internet users, driving the demand for stronger ICT infrastructure.

Aksentt Tech has recently entered the customer premise equipment (CPE) market with the launch of the Netcaster Router. These devices are essential for broadband carriers, acting as the connection point between a physical fiber-optic line and the user's premises to ensure seamless Wi-Fi connectivity.

In line with the 'Make in India' initiative, Aksentt Tech manufactures its products domestically and aims to enhance its vendor management program by partnering with leading OEMs, with a strong emphasis on local product sourcing.

**Mr. Vivek Khanna** Managing Director INDIC EMS Electronics Pvt. Ltd.

### What are some of the key milestones of the company in recent years?

Indic EMS Electronics, established in 2007 with just 60 team members, has grown to a workforce of over 1,000 skilled employees. Specializing in PCBA and box build solutions, we serve a global clientele and are recognized as a leader in the **Electronics Manufacturing Services** (EMS) sector. Our commitment to environmental responsibility is evident in our transition to 100% lead-free manufacturing. Recent expansions have increased our production capacity by 300%, and we continue to grow, aiming to double our output soon. Our accolades include the Best SCM Partner in the EV business and India's Greatest Brand for 2022-2023, reflecting our prominence both domestically and internationally. We also prioritize the growth and development of our team, initiating numerous training programs, including mentoring and IPC certification, to ensure continuous skill enhancement.

Furthermore, our commitment to social responsibility is demonstrated through our partnership with a local

school to educate underprivileged children

## What are some of the key products / services offered by the company?

Our comprehensive suite of services meets diverse industry needs, including prototyping, product engineering, both high and low volume manufacturing, testing, aftermarket services, and specialized box build solutions. We hold numerous certifications, such as ISO 9001, IATF 16949, ESD 20:20, ISO 14001, ISO 45001, and ISO 27001, and are continuously enhancing our in-house design capabilities to better serve our clients. Our facilities feature state-of-the-art Japanese machinery and maintain 100% traceability in manufacturing processes, ensuring exceptional precision and quality.

These capabilities enable us to effectively serve industries like renewables, e-mobility, industrial sectors, and IoT, establishing us as a versatile and reliable EMS partner.

#### What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

In line with industry 4.0, we've implemented SAP S/4HANA for enhanced inventory management and a Manufacturing Execution System (MES) to improve efficiency and predict defects on the shop floor. The introduction of a Smart Store using KARDEX technology has optimized our inventory management, and our RFQ Management Portal has significantly improved the responsiveness of our sourcing team. By digitizing all statutory documents and records on a centralized server, we ensure swift document retrieval, irrespective of age. Our commitment to lean manufacturing is evident in the design of our new facility, which emphasizes operational efficiency, waste reduction, and sustainability.

#### What are your key strategic priorities for customers and stakeholders to drive long term growth?

Strategically, Indic EMS Electronics focuses on quality, timely delivery, trust, and comprehensive service integration to support our customers' success and foster sustainable growth. We adhere to high quality standards to meet and exceed customer expectations, emphasizing the importance of on-time delivery to enhance market competitiveness.

Our approach to building trust through partnerships and providing integrated services under one roof ensures a seamless manufacturing solution for our clients. This strategy not only supports our customers but also promotes long-term growth and sustainability for our company.

**Mr. Samudra Sen** Chief Executive Officer LearningMate Solutions Pvt. Ltd.

#### What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

LearningMate employs an aggressive patent strategy to protect its intellectual property and maintain a competitive edge in EdTech. This has led to the company being awarded multiple US patents in content engineering, content delivery, and classroom management. LearningMate heavily invests in researching and developing cuttingedge platforms and tools for digital learning solutions.

- Frost Content Engineering Platform: This cloud-based platform develops interactive learning content across multiple media types and automates the development process with patented technologies, saving time and effort.
- Kadal Al Workbench: Our brainchild Kadal provides a suite of tools and templates to quickly develop, deploy, and integrate Al-powered learning features and capabilities into our solutions.
- Engage Learning Framework: We offer Al-informed instructional

## LearningMate

design templates and best practices for creating engaging learning experiences across multiple channels.

To grow and succeed, LearningMate has focused on innovation through patents, platforms, and processes to stay ahead of the curve.

#### What are your key strategic priorities for customers and stakeholders to drive long-term growth?

LearningMate's long-term growth plan is driven by the following three key strategic priorities:

- 1.Eliminating costs from customer balance sheets: Our patented technologies, content engineering platforms, and AI models help education providers cut the costs of developing and delivering digital learning products and services.
- 2. Driving better teaching and learning outcomes: LearningMate's mission is to enhance teaching and learning through its Al-informed Engage Learning Framework, delivering interactive, multimodal, and efficacy-optimized learning experiences.
- 3.Enabling flexibility and accelerating workforce readiness: LearningMate supports learning anytime, anywhere, and on any device, enabling learners to quickly acquire skills the workforce demands. We make refactoring large courses,

modularizing content, providing micro-credentials, and providing continuous upskilling and reskilling easy.

## What is your company's growth strategy for the next 3 to 5 years?

Our growth strategy for the next 3 to 5 years as we strengthen our position as a global leader in EdTech includes organic and inorganic growth.

- Organic Growth: The demand for education technology has helped drive our organic growth. Investing heavily to build on this momentum, we're expanding our presence in strategic geographies.
- Capability Expansion: We're tapping into new aspects of AI, machine learning, and learning analytics to bring value to our clients by upgrading our platforms, tools, and solutions.
- Inorganic Growth: Through a focused corporate development effort, we're actively pursuing inorganic growth opportunities. It includes:
  - o Strategic Acquisitions: After two acquisitions and two rebranding initiatives, our goal is to strengthen our position as an end-to-end EdTech partner by acquiring companies with complementary capabilities, technologies, or market access.
  - o Strategic Partnerships: With our robust partner program, we're committed to forming strategic alliances with other industry players.

Mr. Hemant Sapra President Global Sales & Marketing KARAM Safety Private Limited

#### What are some of the key products / services offered by the company?

KARAM specializes in manufacturing Personal Protective Equipment (PPE) and Fall Protection products, catering to diverse industrial needs in India, the Middle East, and Africa. Additionally, they provide training programs through their dedicated training facility to ensure proper use of their equipment. A unique aspect of their approach is the multi-brand strategy: KRATOS caters to the safety needs of Europe, while KStrong caters to the USA, Brazil, and Asia Pacific, ensuring compliance with specific regional safety requirements and regulations. This multi-brand approach allows them to effectively serve a global clientele.

#### How does your organization leverage on innovative supply chain & logistics solutions to drive operational efficiency?

KARAM transcends traditional manufacturing to guarantee efficient operations. Their fully vertically

integrated facilities establish a robust foundation for timely production. An advanced supply chain planning tool empowers them to optimize inventory and production based on predicted demand. Looking ahead, they're implementing iSupplier, a cutting-edge platform that will seamlessly connect them with suppliers, potentially leading to faster turnaround times and cost savings. Finally, a real-time iWMS (Warehouse Management System) equips their sales team with accurate stock visibility, resulting in faster quotes, smoother order reservation, and ultimately, a more streamlined customer experience.

## How is the company gearing towards "Atmanirbharta"?

KARAM is a strong advocate for Atmanirbharta (self-reliance) through various strategies. Their vertically integrated manufacturing ensures all products are "Made in India." With a factory area spanning over 50 acres and employing over 4000 personnel, they significantly contribute to job creation and social welfare. Additionally, to meet growing demands, KARAM is expanding its manufacturing footprint by securing land and constructing new facilities. Furthermore, by continuously developing and innovating new lines of (or new range of) safety products, KARAM is lessening its dependence on foreign suppliers.

## What is your company's growth strategy for next 3-5 years?

Prioritizing continued innovation and R&D in safety solutions to address evolving market needs is the foundation of all growth strategies. Strategic acquisitions, like the recent Midas Safety India deal, will expand their product portfolio and market reach thereby contributing to inorganic growth. KARAM has also planned to establish manufacturing facilities in strategic locations like Middle East and Africa to cater to the growing global demand. And lastly KARAM's focus on ESG is going to play an essential part in driving the company forward in a sustainable manner.

**Mr. Vishal Agarwalla** Managing Director Maithan Ceramic Limited

### What are some of the key milestones of the company in recent years?

The company has grown from 90 crores topline in FY 17 to 450 crores in FY 23 showing 30%+ CAGR for 6 years. This has been achieved by continued modernization of the product and infrastructure. In this timeline, we have achieved leadership in key segments challenging established global MNCs on their turf. We have introduced innovative and globally benchmarked products in the market entirely developed in-house, thereby reducing the dependence and expenditure on imports. Today 60% of our revenue is derived from products that did not exist in our portfolio 10 years ago and was widely imported into the Indian market.

## What are some of the key products / services offered by the company?

The company provides comprehensive refractory solutions to the iron, steel, glass, non-ferrous

## ceramic limited

metals and cement industries. From industry benchmarks to built-to-order product supply alongwith technical and application services, we cover the entire gamut for the refractory needs of a customer.

## How is the company gearing towards "Atmanirbharta"?

We manufacture 100% of our products at a single location in India. These include many items that were being mainly imported till recently, one such case being magnesia carbon bricks that are essential to steelmaking. In addition to finished products, we manufacture processed minerals that are intermediates in refractory production that are being imported largely from China. Our future plans include on-shoring more intermediates thereby increasing the value addition in India and diversification from China that currently dominates this space globally.

#### What are your key strategic priorities for customers and stakeholders to drive long term growth?

We are continuously investing in research, product quality upgradation and vertical integration of our supply chain. This will ensure that our customers have an assured and dependable supplier next door ready to enter into long term contracts or being able to counter their supply chain volatility at short notice. Building trust is the path that can create sustainable long term value for both our customers and our stakeholders.

We are in the meanwhile investing into onboarding a young and capable team that is being intensively trained to create technology leaders for the future of this country.

Mr. Pradeep Bagla Managing Director Amrit Cement Limited

### How would you describe the journey of your company since its inception?

We have transformed, facilitated by our philosophy of 7 Ts - Target, Team, Technology, Togetherness, Transparency, Trust, and Truth, cementing the mantra of uncompromising performance.

We have transcended in quality, ambitions, and identity and emerged stronger when we became AmritCem from Amrit Cement.

AmritCem's journey is a testament to its unwavering commitment to excellence.

Driven by a vision that prioritizes employee well-being, customer satisfaction, and environmental preservation.

AmritCem's success is driven by its devotion to cutting-edge technology and procedures. The firm is headquartered in Kolkata and has manufacturing facilities in Meghalaya. It conducts a full-scale cement production process in the northeast. AmritCem's facility,

which has an installed capacity of 1.5 MPTA and generates 10MW of power, demonstrates the company's production expertise.

## What are company's initiatives to drive sustainability practices for business operations?

We at AmritCem are motivated by the desire to improve both the environment and people's lives. Hence, along with worldclass labs of quality control, we have integrated, self-regulating mechanisms to encourage a positive impact on the environment, employees, local communities and other stakeholders. We take many actions to improve lives and brighten our futures because we recognize our responsibility to the environment, people, and society. We have also been conscious in encouraging greenery around the areas of operation in Assam through extensive green belt development programs. Many green projects are implemented to preserve a healthy ecosystem.

#### What are the major people development and engagement activities of the company?

AmritCem has constantly been working towards empowering and uplifting the surrounding community. Community welfare and development has always been at the core of Amrit Cement's CSR initiatives. We constantly try to touch the lives of our community members in a positive way and bring a smile on their faces.

AmritCem believes that compensation is an employer's human capital investment strategy that considers all aspects of rewards in creating a competitive compensation for the employees.

#### What are your key strategic priorities for customers and stakeholders to drive long term growth?

AmritCem has gained a reputation as a brand that prioritizes its people and environment, with initiatives for employees, social causes, and sustainability.

We use the best of raw materials and have an enviable infrastructure supported by advanced technologies to ensure supreme cement quality.

As a brand we have grown hand in hand with all our stakeholders. Their confidence and faith in us is what keeps us going.

The path forward for the industry is to embrace digitization and sustainability. Putting these at the core of future planning will help us to match other industries' productivity.

We are a young company with young manpower but high ambitions.

Mr. Subba Raju Bhupatiraju Managing Director NCL Buildtek Limited

## How would you describe the journey of your company since its inception?

NCL Buildtek, founded in 1986 (part of the 3000cr NCL Group), has a history of introducing innovative building materials to India. The Company was the first to introduce color coated steel windows in collaboration with Secco S.p.A, Italy and spray plasters under the brand name Alltek in collaboration with ICP Sweden, and uPVC windows in collaboration with Wintech, Turkey and VEKA, Germany. NCL Buildtek has grown from 2 to 14 products across 17 units and strives to be a one-stop shop for building materials with a focus on quality and service.

## What are some of the key milestones of the company in recent years?

The Company established one of the largest AAC blocks manufacturing units in Nellore that has a production capacity of 500,000 m3/year to augment our already existing capacity of 250,000 m3 in Kavuluru in Andhra Pradesh. NCL Buildtek, India's first in color coated steel windows (1980s), signed an OEM

deal with Tata Pravesh to supply them, further solidifying our expertise. NCL Buildtek further expanded our offerings with our own NCL Alluro aluminum doors and windows, complementing our existing partnership with Schueco, while also expanding our tile adhesive product line.

#### What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

NCL Buildtek has introduced several innovative initiatives to enhance its product offerings, improve operational efficiency, and stay ahead of industry trends:

**Digital Transformation:** We have Implemented advanced digital tools for project management, customer engagement, and operational transparency to enhance efficiency and customer satisfaction.

Sustainable Building Materials: We have developed eco-friendly materials, positioning NCL Buildtek as a leader in green building and attracting environmentally conscious clients.

**R&D Investment:** We have made significant investment in R&D to innovate and improve existing products and develop new ones has kept NCL Buildtek at the forefront of industry advancements, ensuring that our products remain competitive and technologically advanced. Enhanced Supply Chain Management: Adoption of advanced supply chain management techniques, including real-time inventory tracking and automated ordering systems have led to better inventory management, reduced lead times, and lower operational costs, thereby increasing the company's profitability.

## How is the company gearing towards "Atmanirbharta"?

NCL Buildtek advances "Atmanirbharta" (self-reliance) through strategic initiatives:

Local Manufacturing Expansion: We're expanding local production across India, reducing import reliance and boosting domestic output.

NCL Alluro: Made in India Innovation: This in-house aluminum brand exemplifies our commitment to developing and promoting local products.

**Empowering Local Industry:** Our collaboration with Tata Pravesh strengthens local supply chains and fosters partnerships within the Indian industrial ecosystem.

Skill Development and Employment: By creating jobs and fostering skill development, we contribute to the socio-economic growth of the regions we operate in.

Mr. Balasubramanian V. Managing Director Ring Plus Aqua Limited

#### What are some of the key milestones of the company in recent years?

We have a track record of delivering quality products to our customers consistently at zero -defects and JIT at competitive costs.

This competitive advantage has helped us to maintain a consistent pace of growth much above the market rate at about 17% CAGR over the past 4 years. We have gained a significant market share despite headwinds such as pandemic, economic downturns, war situations, etc. in recent years.

We are very sensitive and responsive to our customer requirements. As an example, one of our key European competitors had a forced shutdown due to a natural calamity which put the production of major E OEMs at stake. We were able to respond quickly and deliver the products in a short time through a capacity ramp up and various other productivity measures. This not only gained the goodwill of leading OEM's but also large Tier 1 intermediaries and has helped us to add many new customers in the process.

Such consistent customer focus and responsiveness has helped us build our market base and bag many prestigious awards in the global arena such as ACMA Award for Excellence in Export (Mar'24) and EEPC India Award (Western Region) for Exports Excellence 20-21 as well as recognition from many leading customers in the Indian Market

## What are some of the key products / services offered by the company?

We are in the business of engine and transmission components. Our strength lies in design service, testing validation and approval besides zerodefect delivery. We work together closely with our Tier 1 customers and/or OEMs in the early stage of product development and evolve the products jointly and validate with them. Additionally, we give JIT services not only domestically but overseas by maintaining local warehouses. One of our products is a critical component in auto transmission powertrain. As auto transmission is gaining traction not only in India, but globally, we see a good growth potential from this product line.

#### How does your organization leverage on innovative supply chain & logistics solutions to drive operational efficiency?

We have developed an efficient supply chain with lean manufacturing

concepts established in our facilities that helps us to maintain JIT delivery to all our key customers despite being thousands of kms apart mainly in Europe and North America, by maintaining local warehouse. Despite our business being 60% from exports, we have maintained around 30 days of Working Capital, which is industry benchmark.

## What are company's initiatives to drive sustainability practices for business operations?

We focus on reduction in the intensity of energy usage wherever possible. In addition, an increasing percentage of our energy solutions in recent years is coming from green energy sources. Post pandemic we have reduced our CO2 emission index by nearly 50%. In the new fiscal 24-25 we commissioned Open Access (Solar) Panel in one of our facilities, which is set to give us benefit of around 6100MT reduction in CO2 emission, through substitution. While the current focus is on energy reductions, we are focusing on other comprehensive ESG measures in all our facilities.

**Mr. Yugal Sikri** Managing Director RPG Life Sciences Limited

### What are some of the key milestones of the company in recent years?

RPG Life Sciences is an over fivedecades-old pharma company - starting as a joint-venture with GD Searle, USA. With Searle exiting India, the company got rechristened as RPG Life Sciences, inheriting iconic/textbook brands, R&D/Manufacturing/Regulatory infrastructure, processes, and equity. It is amongst the few midsize pharma companies - wellrepresented in all three segments viz. Domestic Formulations, International Formulations, and APIs having the manufacturing infrastructure, organization-structure, experience, and skill-set of an evolved organization with strong front-end and back-end capabilities.

Backed by a well-conceptualized Transformation-agenda devised and being diligently executed by a ~1200-strong team for the last 5 years, we have emerged today as a benchmark mid-size company with revenue growth significantlyand-consistently-higher-than-themarket, all 3 segments growing

healthy, profitability and profits grown manifold, become debtfree - generating healthy positive cashflows, reached the top in key financial ratios - all eventually reflecting in our market cap leapfrogging >9x, significantly ahead of BSE Healthcare index growth.

## What are some of the key products / services offered by the company?

The company has a strong customer base in all 3 segments & enjoys longtime-trusted relationship with some of the marquee pharma players. Key products offered in the International Formulations Business are:

- Immunosuppressants Portfolio
- Value-add products eg Sodium Valproate PR
- Products needing complex manufacturing conditions eg Nicorandil

In India, we have good presence in 9 therapies and our portfolio is uniquely placed with 6 Global/ Textbook brands like Naprosyn, Aldactone, Azoran, Serenace, Lomotil and Norpace.

## What are company's initiatives to drive sustainability practices for business operations?

We have charted out a welldefined ESG agenda through a comprehensive benchmarking exercise. A number of projects like carbon emission-reduction, energyefficiency, water consumptionreduction, hazardous wastereduction, D&I , tree-plantation, comorbidity-control, quality-vigil, data-integrity, and cyber-security are underway.

## What is your company's growth strategy for next 3-5 years?

The overall strategy of the company is to have a sustainable-profitable growth.

The Domestic Formulations business strategy is built around 5-pillars:

- Product-Portfolio Rejuvenation by building chronic and specialty portfolio with new launches
- Strategic Brand-Asset Building through Life-Cycle-Management
- Deepening Customer-Coverage in targeted therapies via phygital
- Augmentation of Salesforce-Effectiveness and productivity
- Profitability Improvement by costoptimisation

The strategy for international business - both API and Formulations, is stepwise profitable business build-up via curated 5-pillars:

- Invest in building stateof-art Manufacturing/R&D infrastructure.
- Build product-pipeline with a specific competitive advantage
- Augment our strong niche immunosuppressant portfolio
- Expand footprints in both emerging and regulated markets
- Grow existing products through New Line Extensions-New Customers-New Markets

**Mr. Swapan Bhattacharya** Managing Director TCG Lifesciences Private Limited

### What are some of the key milestones of the company in recent years?

With a view of setting up global operations and to strengthen our CDMO business domain, we established a subsidiary, TCG GreenChem, in the US. In its sprawling 75,000 sq ft operations and managed by industry veterans, this entity is a unique iCDMO providing innovations in flow chemistry, catalysis, and green chemistry applications. Additionally, we have initiated the data science service vertical with bioinformatics, target deconvolution, analytics and AI/ML features. Our recent milestones include focus on guality, ethics, and environmental responsibility. To that end, we have received prestigious certifications like AAALAC, NABL, USFDA and ISO etc. Our corporate sustainability program has gained full momentum. Finally, we received the Great Place to Work certification by showcasing our commitment to innovation, employee well-being, and workspace management.

## How does your organization leverage innovative supply chain

www.tcgls.com

## & logistics solutions to drive operational efficiency?

TCGLS has mastered the art of adapting to the supply chain for over 20 years now. Recognizing the impact of technology, economics, and geopolitics, we leverage cutting-edge tools like ERPs and supplier portals for real-time data and streamlined ordering. We have also automated internal processes to minimize manual work and thereby maximizing efficiency. The company and its subsidiaries have recently installed the most recent SAP HANA platform for all its operational, procurement and financial needs.

Central to its product logistics engine is a precision compound management system, utilizing an acoustic nano-dispenser which manages movements of each chemical, from its initial synthesis to the creation of mother and daughter plates and ultimate supply to the client site. This enables TCGLS to store, distribute and supply samples for all its customer needs. For example, with a single customer, TCGLS moves the material to 60 different sites around the globe. TCGLS uses predictive analytics for inventory management, localize stock to reduce delays, and have backup suppliers and diverse routes to minimize disruptions, ensuring agility and competitiveness.

What are company's initiatives to drive sustainability practices for

#### business operations?

TCGLS is an ISO 14001:2015 and ISO 45001:2018 certified company. We have implemented several initiatives to drive sustainability in our regular business operations like following 3R approach (reduce, reuse, and recycle) in our R&D and Plant facility (Clininvent Research Pvt. Ltd); using energy-efficient devices and technologies to reduce our carbon footprint; waste reduction and recycling programs to minimize our environmental impact. We have Effluent Treatment and Zero liquid discharge (ZLD) plant for treating our effluents. We source materials from sustainable and ethical suppliers. Our commitment to sustainability is integrated into our operations by complying with all applicable statutory requirements.

#### What are your key strategic priorities for customers and stakeholders to drive long term growth?

Client success is our top priority. We focus on innovating drug development processes and addressing clients' pain points. We expand services and technologies to meet demands and exceed client expectations through proactive communication. We emphasize efficiency, continuous improvement, and training. Business continuity, positive culture, risk management, social responsibility, and sustainable workflows are integral to our commitment to stakeholder success and growth.

**Mr. Ajay Anand** Chairman & Managing Director Faze Three Limited

## What are some of the key milestones of the company in recent years?

Faze3 has added new product lines & commenced business in each of them over the last couple of years. Our expansions were planned to augment capacity for existing products while adding new product flexibility within the existing factories. Faze3 has invested over 150 Crs from internal accruals over last 4 years for expansion. The growth engine and infrastructure for adding almost 2-3x of the existing has been created from within. Besides, our relationship vintage with all large retailers has consolidated further having showcased our company with significantly enhanced capabilities.

#### How does Faze3 leverage on innovative supply chain & logistics solutions to drive operational efficiency and What are company's initiatives to drive sustainability practices for business operations?

Faze3 has built strong partnerships with Key Domestic Suppliers / Vendors (being large corporates) with assured business certainty and upfront payment terms to secure

Mr. Vishnu Anand President Faze Three Limited

quality and timely supplies.

Our factories at Western India are powered up to 40% overall by Solar (rooftop) and North India will go up to 40-50% Solar by end of FY 2025. All our Warehouses are powered by Electric Li-ion MHE. In North India, our processing is fueled by PNG since the start of 2024 replacing Coal, Husk, etc. We have also added range of sustainable options across product lines. Faze3 has vertically integrated operations for all products starting from the Yarn procurement stage.

## How is the company gearing towards "Atmanirbharta"?

Faze3 derives more than 95% of revenue from Export with most of raw material procured (almost 99%) domestically from India. Faze3 gives preference to local areas for procuring raw materials where factories are situated with assured business certainty and upfront payment. The group employs directly and indirectly approx. 5000+ people and has huge positive impact on the communities around. Faze3 is a frontrunner for China Plus One theme in our category of business with the Major retailers of the world looking for an alternative.

We do expect the Polyester supply chain in India to become more competitive than existing to be able to compete with China over the next 3-5 years across all products, FTA's sign off, PLI schemes, etc. to all contribute significantly to boost the critical sector to the economy. India is a leader in global cotton textiles trade and truly atmanirbhar in that sense however 70% of global textile trade is polyester and to that extent there is an uphill task for India to capture its share back in the textiles globally for which the availability of Polyester and its key raw materials need to be democratized.

## What is your company's growth strategy for next 3-5 years?

Continuous innovation and new offerings across products has been the mantra for us which has kept us in the liking of our customers. Building product lines with competitive cost structure whilst offering innovation / flexibility, being ahead of the curve on sustainability, etc are all integrated part of our growth strategy.

Mr. Sheetal Sadanand Shetty Group Managing Director Capricorn Logistics Private Limited

## How would you describe the journey of your company since its inception?

Capricorn Logistics' journey has been marked by innovation, groundbreaking achievements, and dynamism. Founded on principles of flexibility and integrity, the company rapidly ascended, penetrating the market with a customer-centric approach. Technological integration and global expansion marked pivotal shifts, enhancing operational efficiency and diversifying the company's reach.

With a legacy spanning over two decades, we have been recognised as a specialised reliable and consistent service provider in India, and over the years, across Asia and the Middle East. Our relentless pursuit of excellence has transformed us into a million-dollar entity, known for our outstanding contributions and commitment to quality service.

Founded in 2001 as a viable, local, cost-effective alternative to global multinationals. We are proud over the years we have achieved this goal in India & middle east logistics

industry. Today, we are a leading Indian multinational, distinguished by our commitment to customer satisfaction.

#### How does your organization leverage on innovative supply chain & logistics solutions to drive operational efficiency?

Capricorn Logistics leverages innovation to meet customer goals and supply chain needs. Our greatest strength lies in our strong human resources, a detailed operational process designed for maximum efficiency, and support from cutting-edge technology and global best practices. Automation in warehousing speeds up processes and boosts efficiency, while data analytics enables proactive decisionmaking and route optimization.

We integrate ESG principles into our core, fostering diversity, inclusion, and ethical practices to positively impact stakeholders and the environment while balancing profitability with purpose for sustainable, lasting impact.

## How is the company gearing towards "Atmanirbharta"?

Capricorn Logistics, a leading Indian multinational logistics organisation, consistently offers expertise and consolidated solutions to numerous multinational companies. We actively engage with local vendors and Small and Medium Enterprises (SMEs), empowering them to become integral parts of our global supply chain. Through collaboration, we enhance their capabilities and provide them with access to international markets. This not only supports local businesses but also fosters self-reliance within the domestic economy. Additionally, we connect local customers with global clients, further expanding their reach.

We invest in local technology and infrastructure, prioritizing Indian manufacturers and suppliers to enhance operational efficiency and support a self-reliant economy.

#### What are your key strategic priorities for customers and stakeholders to drive long term growth?

Our key strategic priorities for driving long-term growth revolve around ensuring customer satisfaction and stakeholder engagement by continuously enhancing our service offerings and expanding our network. We are focused on increasing our small international express business, investing in technology and infrastructure, expanding our 3PL services, and improving local transportation. We aim to drive strong organic growth in freight forwarding and customer brokerage, focusing on sustainability to create long-term value for our customers and stakeholders.

#### G7 CR's Unified Customer Experience: Revolutionizing Tech Support

In an era where customer acquisition is fiercely competitive, the true challenge often lies in customer retention, particularly in the B2B tech space. The struggle to maintain clients despite exhaustive efforts to onboard them stems largely from inadequate tech support experiences. G7 CR Technologies – a Noventiq company, a pioneer in technology solutions, is setting a new standard with its innovative approach: the Unified Customer Experience (UCX) method.

#### THE CHALLENGES:

Traditional tech support systems are plagued with inefficiencies. Christopher Richard, a key figure in G7 CR's strategic planning, highlights the primary issues:

1. Lack of Tech Expertise and Environment Understanding:

Tech support personnel often lack either the technical knowledge or the understanding of the client's specific environment, leading to prolonged problem-solving times.

- 2. Fragmented Support Teams: Different teams handle various aspects of support–data, network, billing–leading to a fragmented and frustrating customer experience.
- 3. Inefficient Inter-Department Collaboration: Tech support often requires input from billing or finance departments,

causing delays due to the lack of synchronization between these departments.

4. Repetitive Explanations: Customers repeatedly need to explain their environment and issues to different support personnel, wasting valuable time and increasing frustration.

#### THE SOLUTION: UNIFIED CUSTOMER EXPERIENCE (UCX)

G7 CR's Unified Customer Experience aims to transform the customer support paradigm by creating dedicated, multidisciplinary teams. These teams include tech experts, billing specialists, account managers, and customer success managers, all working under a single unit with unified goals and objectives. This structure ensures seamless communication and a holistic approach to problem-solving.

#### **KEY FEATURES OF UCX:**

- Dedicated Teams: Small, fixed units of 16 people are assigned to specific customers, ensuring familiarity with the customer's environment and personalized service.
- Comprehensive Support: Each team comprises various specialists, enabling them to handle all aspects of support– technical issues, billing queries, and account management– without bouncing the customer between departments.

- Enhanced Collaboration: By reporting to one manager and having a unified KPI focused on customer satisfaction, these teams can effectively collaborate to resolve issues promptly.
- Improved Customer Relationship: Continuous interaction with the same team members fosters a stronger, more personal relationship, enhancing the overall support experience.

#### THE IMPACT

This revolutionary approach promises to elevate the customer support experience significantly. By addressing the root causes of customer frustration and providing a cohesive support structure, G7 CR aims to not only retain clients but also turn tech support into a positive, seamless experience.

G7 CR's Unified Customer Experience is set to redefine tech support, making it more efficient, personalized, and customer centric. As organizations increasingly recognize the importance of excellent post-sale support, methods like UCE will become essential in maintaining long-term client relationships and driving business success.

For more information on G7 CR's Unified Customer Experience and how it can benefit your organization, please visit G7 CR's official website.

Future of Agriculture "Meeting the 21st Century Consumer and Farmer Needs" Developing and Leading the Crop Solutions Market

#### **ABOUT FERTIS:**

Fertis was established 12 years ago to develop innovative technology solutions for tackling complex challenges being faced by the agricultural and food value chain for meeting 21st Century Consumers and Farmer Demands.

#### THE COMPANY OPERATES 4 BUSINESSES:

- 1. Sustainable Agricultural Input Solutions
- 2. Commodity Markets Solutions
- 3. Sustainable Food Ingredient Solutions
- 4. Nebulaa Innovations Pvt. Ltd.

#### FERTIS RESEARCH AND DEVELOPMENT - OVERVIEW:

The company has a track record of bringing several global first to the market solutions from labs, patents, scale up to registrations and markets.

Soil Science/Crop Nutrition, Pathology and Entomology	Advanced Analytical Equipment
Nano Material Synthesis and Formulations	Teams and alliances for testing across Agroclimatic zones
Process Chemistry, Plasma & Electrochemistry and Computational Chemistry	In vitro and in vivo analysis - Lab/ Green House/ Test plots
Organic and Inorganic Chemistry, Material Sciences and Formulations	Pilot Plants (Fermentation, Inorganic and Organic Synthesis)
Microbiology, Molecular and Computational Biology, Metabolic Engineering	State of Art laboratories for Biologicals and Chemicals

#### FERTIS AGRI INPUTS DIVISION:

Fertis is one of the largest and the fastest growing specialty fertilizer companies in India with multiple globally patents (issued and patent pending) with deep capabilities in genetics, metabolic engineering, material sciences, plasma chemistry, chemical engineering and fermentation. The company has a strong pan India Presence and Brand recall and its contribution to the sector is recognized through multiple awards by the President of India, Industry and Farmer Bodies.

#### FERTIS COMMODITY MARKETS DIVISION:

Connecting the last mile: Its Commodity Services Division Has Developed from Scratch, Operates and Maintains the World's Largest Commodity Spot Market (eNAM) for the Government of India. Resulting in increasing an average price realization across commodities by around 12.09%\* (which is around 45% increase in net farmer income compared to manual transactions). The companies AI/ML imaging division is digitizing procurement across markets and for Asia's largest commodity company Food Corporation of India through AI/MI.

#### FERTIS FOOD INGREDIENTS DIVISION:

Focused on developing, producing and marketing advanced, sustainable next generation food ingredients to meet the consumer demands of the 21st century.

The company is working on major ingredient classes that make up our diet such as carbohydrates, proteins and lipids using sustainable/renewable raw materials, designer enzymes and microbes with a purpose of Bringing Back the Joy in Eating "Good Health without compromising on Taste, Choice, Convenience or Sustainability".

#### **NEBULAA INNOVATIONS**

Is the world's most advanced perishable and non-perishable commodity assaying company expanding into intelligent sorting and grading to enable seamless digital transactions.

#### **REWARDS AND RECOGNITIONS:**

Nitiayog Award 2017 Indian Agribusiness Award 2022

Agri Business Summit & Agri Awards ABSA 2024 (Best Novel Nutrient Company - Fertis India Pvt. Ltd.)

Nebulaa selected and recognised by Google for its Solve for India program for the year of 2018

Nasscom Award, 2019

PLATINUM AWARD 2023 (for eNAM from President of India in January)

"Our vision is to be the most ethical, transparent, statutory and CSR complaint , eco-friendly and human service-company in India."

A dream imagined from a garage space in kolkata in the year 1985 spread its wings to 30 plus branch offices across all states in India. Mr Shyamal Karmakar, a young and enthusiastic man with indomitable urge & passion realized from the core of his heart to create opportunities for numerous other unemployed youths in the country. This is what motivated him to keep the foundation of this unique endeavor which he started with a meagre capital of ₹ 350 in the year 1985. The 39-year legacy has now a business turnover of ₹ 951 crores with a manpower strength of 38000 approximately. Our employment target is 50000 manpower in 2025.

Under the able and dynamic leadership of Mr Shyamal Karmakar, the Managing Director SHYAMAL KARMAKAR Managing Director

SHREYASEE KARMAKAR Director

of the Company, S&IB is an established brand-name today. The Company has transformed itself into a multi-business enterprise with a diversified business portfolio within the period of time.

S&IB Services is a one-stop solution provider to every requirement in the arena of Integrated Facility Management. Its services include Total Security Solutions, Total Facility Management, Electronic Surveillance System, Banking support services, Treasury Management, Transportation and logistics, Event Management, Fire Safety and Disaster Management, Manpower Outsourcing & Payroll Management, Repair & Maintenance, Electro-mechanical services, Property Management, AMC Management, Company Lease Car, Mobile Tower Operations and Maintenance, Civil Maintenance, Warehouse Management and so on.

For long-term survival in this cutthroat business ecosystem, "Never compromise with business ethics, always be patient. Every challenge is an opportunity to learn and grow."-Shyamal Karmakar, Managing Director

Shreyasee Karmakar, Director

of S&IB Services is the secondgeneration business woman who is now an integral part of the business and is aiming to continue and grow the legacy which was once created by her father almost four decades ago. Positive attitude towards life is her biggest strength. No matter how difficult the situation is, she keeps calm and takes decisions strategically. Her mantra to win at workplace by connecting personally with her employees, who in turn, render services meeting client's expectations. She is observant and a good listener. Shreyasee believes in team work and often encourages her employees to counter her decisions. Her active participation in the company resulted in manifold growth in the recent years despite adverse situation caused by the pandemic.

# GRT Hotels & Resorts leads the way to a sustainable future

In times marked by increasing concern for environmental and social responsibility, the hospitality industry has undergone a significant transformation to blend stellar guest experiences with ecological and societal well-being. GRT Hotels & Resorts recognises this urgency to make eco-friendly decisions, and is committed to putting sustainability at the forefront of its operations.

Through actions that support recycling, conservation and creating awareness, the GRT group has made much progress in complying with the globally-recognised sustainability indicators developed by the World Travel & Tourism Council (WTTC). These indicators form the building blocks of the group's green mission, but with the signature creative twist the premium brand is synonymous with.

In alignment with this mission, the GRT group has amped up its conservation efforts through stringent monitoring of sub meters and water meters. Measuring the number of units consumed per guest has helped in conserving these precious resources, with results seen across properties. To streamline the process, the group's tech-forward mindset has helped it stay on top of the game through softwares that present real-time data on carbon emissions.

Getting guests involved in its green goals has been highly efficacious in connecting with today's ecoconscious traveller. This desire to connect with guests is evident throughout the cycle of one's stay at a GRT property, through programmes like the 'Green Circle Brochure'. Distributed to guests while checking in, the programme enables them to make sustainable choices during their stay that are converted into points, which can then be exchanged for gifts when their visit ends.

Another area covered is waste management and recycling. Globally, the hospitality industry is associated with generating large amounts of waste. To mitigate this, GRT Hotels & Resorts has a robust waste management system in place, with plants for water recycling, organic and inorganic waste across properties. The towel and linen reuse programmes - an effective waste management strategy world-over - have significantly reduced water wastage too. Single-use plastic, responsible for the degradation of much of the globe's ecosystems, is tackled via reusable glass bottles, straws and toiletries containers at all properties.

The GRT group understands the need to have every hand on deck in its mission, which would not have been possible without the strong bonds it has nurtured within the organisation. Here, combining creativity with community-building has been effective. An example of this is the 'No Bin Day' campaign practised over two days each month, which has been successful in getting employees to curb food wastage.

While the group has taken massive strides in making its own part of these initiatives, there is also a strong emphasis on community welfare. Through its CSR activities, the GRT group has built strong relationships with local stakeholders via food donation drives, medical camps and disaster relief measures. It is through interactions with those from all walks of life that a renewed sense of compassion can be seen within the GRT community too. Immense sensitivity and care has gone into fostering equity and diversity - from ensuring that at least 25% of the workplace comprises women to creating livelihood opportunities for persons with disabilities.

"We recognise our responsibility in making conscious decisions that have a positive impact on the environment and on society. Our vision, as we grow, is to become a sustainable hospitality chain," says Vikram Cotah, CEO, GRT Hotels & Resorts

The road to sustainable hospitality has its challenges, but what has worked for the group is insight, collaboration and innovation. And as the world grapples with mounting ecological concerns, GRT Hotels & Resorts has embraced its role in promoting green hospitality, with a pledge to do better year on year.

104 | Leading Mid-Corporates of India 2024

#### [ METHODOLOGY ]

### METHODOLOGY

**'Leading Mid-Corporates of India 2024'** is a Dun & Bradstreet initiative that recognizes and honors India's leading Mid-corporate enterprises. This edition of the publication provides listing of **1,800+** Mid-Corporates companies across multiple industry segments to acknowledge and highlight their major achievements. Apart from this, Dun & Bradstreet also felicitated leading Mid-corporates across industry and theme awards – Business Excellence Awards 2024.

#### **Eligibility Criteria**

Mid-corporates are defined as companies with FY23 standalone annual turnover between INR 250 Crore - 1,000 Crore. The companies that are purely into trading activity are not eligible.

#### **Shortlisting Process**

- Dun & Bradstreet has reached out to Midcorporates across the country through multiple channels such as email campaign, online medium, industry associations and councils, Dun & Bradstreet's internal database, etc.
- Dun & Bradstreet has also used the financial information available on secondary sources such as Ministry of Corporate Affairs, exchange websites, and other reliable Government websites.
- Through this process, we have sought financial details of Mid-corporates for FY23, FY22, and FY21 through annual reports, audited statements, etc. In addition to the financial information, companies were requested to provide qualitative information in the form of presentations, certifications, client testimonials and other documents to 'Make their Own Case' for excellence.

 Dun & Bradstreet used a proprietary model (employing a combination of quantitative and qualitative parameters) to analyze various details available and have 'listed' leading Midcorporates of India, together with analysis of companies for 'business excellence awards' for industry & theme-based categories.

#### Selection of Business Excellence Award Winners

The shortlisted companies were duly evaluated by an eminent panel of industry and experts at a jury meeting. The final award winners were selected by the jury panel on the basis of multiple factors including quantitative and qualitative and were agreed upon by mutual consensus.

This publication and the awards are tributes to the Mid-corporates sector acknowledging the resilient performance in today's volatile economic environment. This, we believe, will encourage other emerging Mid-corporates to showcase their contribution through their active participation in our future editions. We would be pleased to receive your invaluable feedback and suggestions, which we can incorporate in the next edition.

#### **DEFINITIONS & CALCULATIONS**

#### DEFINITIONS

**Branded Content:** The information and views published under Branded Content have been curated by organization featured in the article. The facts and opinions expressed here do not reflect the views of Dun & Bradstreet

**Expert's View:** The facts, views and opinions expressed in the interviews are those of the contributors and the organization they represent. Dun & Bradstreet has not verified the veracity of the statements made therein
